

Dear AUSD Parents, Guardians, Staff and Community Members,

As we navigate through the transformative journey of our district, we want to ensure that you are fully updated on the progress we are making. It's a period of growth and development that requires open communication and shared understanding, and our commitment to keeping you informed remains unwavering.

- The Board of Trustees approved the Tentative Agreement between the Auburn Union Elementary School District (AUSD) and the Auburn Union Teachers Association (AUTA) affecting the 2023/2024 school year and the upcoming TK-8 Transformation plan as well as the “Me Too” Agreements for Classified staff, Non Represented staff and Management. [Click here to read the full Tentative Agreement.](#)
- The Board of Trustees approved the contract for the installation of age appropriate playground structures at EV Cain for our TK/Kindergarten cubs and elementary students (see images below). The district will use restricted funds (Capital Outlay and UPK) for these projects.
- We are excited to announce that Auburn Union School District has been newly adopted into the Sierra Foothills League. Our participation in the Sierra Foothills League will not only enhance school spirit but also foster a sense of community and pride among our students, staff, and families.
- Beginning next school year, AUTA negotiated for all Auburn Union School District sites to uniformly start at 8 AM. This change aims to streamline daily routines for families, ensure that all students have consistent learning schedules, and support teaching and learning by allowing staff to collaborate across the district through professional development (PD) and professional learning community (PLC) time.
